INFORMATION BULLETIN

Prostheses, Prosthetic Devices and Orthotic Devices

Bulletin 03-09

July 1, 2003

Under authority of Regulation 114.3 CMR 34.01(4), the Division of Health Care Finance and Policy is adding new procedure codes for certified Prostheses, Prosthetic Devices and Orthotic Devices providers, who provide services to publicly-aided individuals. These changes will become effective August 1, 2003.

Addendum to the regulation

The added codes, which all have rates of I.C., are as follows:

Procedure Code

Description

- L8606 Injectable bulking agent , synthetic implant, urinary tract, 1 ml syringe, includes shipping and necessary supplies.
- K0556 Addition to lower extremity, below knee/above knee, custom fabricated from existing mold or prefabricated, socket insert, silicone gel, elastomeric or equal, for use with locking mechanism
- K0557 Addition to lower extremity, below knee/above knee, custom fabricated from existing mold or prefabricated, socket insert, silicone gel, elastomeric or equal, not for use with locking mechanism
- K0558 Addition to lower extremity, below knee/above knee, custom fabricated socket insert for congenital or atypical traumatic amputee, silicone gel, elastomeric or equal, for use with or without locking mechanism, initial only (for other than initial, use code K0556 or K0557)
- K0559 Addition to lower extremity, below knee/above knee, custom fabricated socket insert for other than congenital or atypical traumatic amputee, silicone gel, elastomeric or equal, for use with or without locking mechanism, initial only (for other than initial, use code K0556 or K0557)
- K0618 TLSO, Sagittal-coronal control, modular segmented spinal system, two rigid plastic shells, posterior extends from the sacrococcygeal junction and terminates just inferior to the scapular spine, anterior extends from the symphysis pubis to the xiphoid, soft liner, restricts gross trunk motion in the sagittal and coronal planes, lateral strength is

provided by overlapping plastic and stabilizing closures, includes strap and closures, prefabricated, includes fitting and adjustment

K0619 TLSO, Sagittal-coronal control, modular segmented spinal system, three rigid plastic shells, posterior extends from the sacrococcygeal junction and terminates just inferior to the scapular spine, anterior extends from the symphysis pubis to the xiphoid, soft liner, restricts gross trunk motion in the sagittal and coronal planes, lateral strength is provided by overlapping plastic and stabilizing closures, includes strap and closures, prefabricated, includes fitting and adjustment
